## #STEMstroll: My Patterns Unit 10

### **Day 1:**

**Get Ready For My Patterns!** When we're getting ready for a #STEMstroll, we almost always do the same things. First, we put our tennis shoes on. Second, we make sure the doors are locked. Third, we find our dog's harness and leash and snap them on. Fourth, we leave through the garage door and shut the door behind us. What are the pre-stroll patterns you and your family do? Snap a picture of the first thing you do and share it with us on FB and Instagram @auburndayschool, #STEMstroll.

### **Day 2:**

**Who's First?** Before you stroll today, challenge someone to a quick get ready race. See who can get ready for the stroll first. Make sure you are both aware of what "getting ready" includes! Upload a photo of who came in first on FB and Instagram @auburndayschool #STEMstroll #first.

### **Day 3:**

**I SPY!** What's the first flower you see on your #STEMstroll today? Take pictures of the first, second, and third flowers you find. Upload photos of your first, second and third on FB and Instagram @auburndayschool #STEMstroll #first.

### **Day 4:**

**Strolling Routines!** When you stroll with your family, do you always take the same path? My family likes to start out the same ( it's a learned path) and then branch out to new paths. We almost always end up back on the familiar path that leads to our front door. When strolling today, talk about your paths. See if you can divide your stroll into learned paths and new adventures. Let's take a poll! Tell us if you mainly take the same or different strolls. Comment on our FB post!

### **Day 5:**

**First and Last!** Take a picture of the first person you see on your #STEMstroll today. Take a picture of the last person you see. You might have to take a few and delete the ones in the middle as you don't always know who will be your last! Upload photos of the first and last on FB and Instagram @auburndayschool #STEMstroll #firstlast.
