STEM Experiment

Growing Grass Seeds

Materials:

- Sponge
- Grass Seed (free packets available for local pickup at Momma Mochas in Auburn and Auburn Pharmacy)
- Water
- Empty Container and Lid
- Paper and Crayons (for observations)

Directions:

- Rinse sponge in fresh water. Leave a small amount of water in the sponge on the final wring.
- Place the container lid on your work surface with the inside facing up. Place the damp sponge on the container lid.
- Sprinkle some grass seed on the top of the sponge.
- Sprinkle or spray water over the top of the seed.
- Place the container on top of the lid, making sure it is securely closed.
- Place the container in a sunny spot in your house. Watch it over the next several days to see what changes you observe.
